01 · WHO WE ARE

A licensee that knows your name.

Boutique by design. Specialist by focus. Adviser-first by principle.

Iconic Investors Pty Ltd (AFSL 450822) is a boutique specialist licensee dedicated to supporting experienced, specialist financial advisers across Australia. We are deliberately small — because the advisers we work with deserve a licensee that treats them as a partner, not a line item. Where the large institutional licensees optimise for scale, we optimise for relationship. Where they apply generic templates, we tailor to your practice. Where they route you through a call centre, we give you direct access to the Principal.

Tony Zulli

DIRECTOR, ICONIC INVESTORS

Founder · Responsible Manager · AFSL Principal

CREDENTIALS

- 30+ years across Australian financial services
- Founder & Director of Iconic Investors Group
- Responsible Manager of Iconic Partners (AFSL 450822)
- Founded & sold Accountable Financial Solutions (8 yrs)
- Senior leadership in wealth, SMSF & life risk insurance

BACKGROUND

Tony is the founder and Director of Iconic Investors Group, and the Responsible Manager of the Iconic Partners licence. He has operated a number of licensee businesses, including Accountable Financial Solutions which he founded and operated for eight years before selling. Tony brings broad experience across advice businesses, senior wealth management roles, SMSFs and life risk insurance — and personally remains the day-to-day point of contact for advisers on the licence.

> *I built the licensee I wished I'd had as an adviser.*

Antonio Albuquerque

MANAGING DIRECTOR

Tax Agent · HNW & Medical Specialist

CREDENTIALS

- 24 years in financial services
- 16 years as a Registered Tax Agent
- Specialist adviser to doctors & high-net-worth clients
- Leads compliance, file reviews & adviser onboarding
- Practice systems, technology & client experience lead

BACKGROUND

Antonio brings 24 years of financial services experience and 16 years as a registered tax agent. A specialist in serving doctors and high-net-worth individuals, he has spent his career helping fellow advisers build stronger practices — improving systems, technology, marketing, compliance and client communication. He runs the supervision program and is the technical escalation point for SMSF, structuring and HNW advice scenarios.

> *Compliance done well is a competitive advantage, not a tax.*

PHILOSOPHY

What we believe.

Six principles that shape every decision we make.

Independence

Above all else — never compromised by product, platform or institution.

Adviser-First

Your success is our only success metric. We grow when you grow.

Transparency

Honest, long-term relationships only. No surprises, no hidden incentives.

Selectivity

Quality over quantity — always. We say no often, so we can say yes well.

Specialist DNA

Specialist expertise deserves specialist support, not a template.

Sustainability

Built to be profitable today and sellable tomorrow — on your timeline.

02 · OUR PROMISE TO ADVISERS

What you can expect.

Plain language. No fine print. The relationship in writing.

Most licensee relationships begin with a glossy brochure and a vague hope. Ours begins with a clear, written promise — and a matching set of expectations from you. This page is the relationship summarised: what we owe you, and what we ask in return.

OUR COMMITMENT

We promise to…

- ✓ **Respond within one business day**
  Every email, every time — usually same day.
- ✓ **Tell you the truth**
  Even when it's inconvenient. Especially then.
- ✓ **Tailor everything**
  Supervision and templates fit YOUR practice.
- ✓ **Stand beside you in complaints**
  AFCA matters are handled with you, not delegated to you.
- ✓ **Keep our books open**
  No hidden revenue share, no kickbacks, no surprises.
- ✓ **Stay small enough to care**
  We will never grow beyond what we can personally service.

WHAT WE ASK

We ask you to…

- → **Hold yourself to high standards**
  Compliance is a mindset, not a checkbox.
- → **Engage with supervision**
  Treat reviews as professional development, not paperwork.
- → **Communicate openly**
  Tell us about issues early — we can almost always help.
- → **Invest in your craft**
  CPD, continuous learning, evolving your client experience.
- → **Refer carefully**
  Only recommend Iconic to peers who share our standards.
- → **Treat clients as you'd want to be treated**
  The simplest test, and the only one that matters.

> *"The best licensee relationships feel like a senior partnership — two professionals, two sets of obligations, one shared standard. That's what we're building here."*
> — TONY ZULLI, DIRECTOR

03 · OUR ADVISER PROFILE

Built for the experienced specialist.

We are deliberately selective. Here's who thrives at Iconic.

Iconic Investors is not a fit for new entrants or generalists. We are built around the needs of seasoned, specialist advisers who have already earned their reputation and now want a licensee that matches their standard. The criteria below are how we think about fit — not as gatekeeping, but as a way of protecting the experience of every adviser already on the licence.

01 Significant Industry Tenure

A meaningful career in financial advice — typically a decade or more — with a stable, well-managed practice and a track record you can stand behind.

02 Specialist Expertise

Deep specialisation in one or more of: investment advice, SMSF strategy, or risk insurance. Generalists are welcome at other licensees.

03 Established Client Base

A loyal, long-standing client base built on trust, referrals and demonstrated outcomes. Quality of relationships, not quantity of files.

04 Strong Compliance Record

A clean professional history — no material complaints, breaches or unresolved regulatory concerns. Honest disclosure during onboarding is non-negotiable.

05 Professional Standards

FASEA-compliant qualifications, current CPD and a genuine commitment to ongoing development. Education is treated as a profession, not a hurdle.

06 Practice Mindset

Treats advice as a profession, not a product — and is building a practice that will outlast them, with clear succession or exit thinking already underway.

A NOTE ON FIT

Every authorisation begins with a frank 15-minute conversation about whether Iconic Investors is the right home for your practice. If we don't think we're the best fit, we'll say so — and where we can, we'll point you toward a licensee we believe is.

04 · COMPLIANCE FRAMEWORK

How we keep you protected.

Six pillars of support — built for specialist advice, not adapted from a generic template.

Compliance at Iconic Investors is designed to be felt as **support**, not surveillance. Each pillar below is delivered by a named person you know — not a portal, not a ticketing queue. Together they form a single, joined-up framework around your licence, your clients and your reputation.

AFSL 450822	1 BUSINESS DAY	100%	ZERO
Licensed since 2014	Compliance response SLA	Senior-led file reviews	Outsourced compliance

PILLAR · 01

Tailored Supervision

A supervision plan built around your specific practice, client base and advice types. Cadence and depth match the complexity of your work — never a template applied to everyone.

Delivered by a named senior reviewer.

PILLAR · 02

Proactive ASIC Monitoring

We track regulatory changes, ASIC guidance and enforcement actions and translate them into plain-language briefings. You stay ahead of obligations — not scrambling to catch up.

Delivered by a named senior reviewer.

PILLAR · 03

SMSF Specialist Framework

Compliance infrastructure built with SMSF advice in mind: BDBN, investment strategies, trustee obligations, audit requirements and pension-phase nuances are covered first-class.

Delivered by a named senior reviewer.

PILLAR · 04

AFCA Complaint Support

If a complaint is lodged, we stand beside you. Guidance, documentation, drafting support and representation through the full AFCA process — with a senior reviewer assigned.

Delivered by a named senior reviewer.

PILLAR · 05

Constructive File Reviews

Scheduled file audits with constructive, written feedback. We identify patterns, suggest improvements and celebrate what's working — not pass/fail tick-box reporting.

Delivered by a named senior reviewer.

PILLAR · 06

CPD Tracking & Planning

We monitor your CPD against ASIC requirements and help plan annual training to meet obligations efficiently — and to fill genuine knowledge gaps, not just hours.

Delivered by a named senior reviewer.

OUR
COMPLIANCE
PROMISE

Compliance at Iconic Investors is a **partnership**, not a checkpoint. Our framework is designed to protect your licence, your clients and your reputation — while keeping the friction of running a compliant practice to a minimum.

05 · BEYOND THE LICENCE

Support that builds your practice.

Six practice-building services included in your licence relationship.

These are deliberately not available at the big corporate licensees — they require a level of personal involvement that simply doesn't scale across thousands of advisers.

01 Technology & Digital Operations

Hands-on help selecting and implementing the right systems — CRM, advice delivery, client portal, document automation and back-office workflows. We've seen what works and what wastes time, and we share both freely.

02 Life Risk Insurance Services

Access to life risk insurance delivered through general advice, creating natural pathways to deeper personal advice relationships and broader planning engagements as the client journey unfolds.

03 Practice Valuation & Exit Planning

Structured support to value your practice, optimise your fee model and plan your exit — on your terms, at the right time, at the right valuation. We've guided multiple successful succession transitions.

04 Specialist Peer Network

Curated connection with like-minded specialist advisers for knowledge sharing, referrals, mastermind discussions and ongoing professional development. Quarterly in-person catch-ups, monthly virtual.

05 Documents & Templates

ASIC-compliant SOA, FSG and SMSF documents, plus client communication templates that streamline your advice process without diluting your voice. Regularly updated, always reviewed by our compliance team.

06 Direct Access to the Principal

A real relationship with Tony Zulli and Antonio Albuquerque — not a call centre, ticketing system or shared inbox. A direct line when you need guidance on a tricky scenario or a second opinion.

06 · SPECIALIST AREAS

Three disciplines, one standard.

Where Iconic's framework is genuinely deeper than the generic licensee.

Most licensees claim to support every advice type. We are honest about the three where our framework, our reviewers and our network add genuine, demonstrable depth — and where the advisers we attract overwhelmingly choose to specialise.

DISCIPLINE · 01

Investments

Direct equities, managed funds, ETFs, model portfolios and structured products.

WHAT'S INCLUDED

- Investment policy statement frameworks tailored by client risk profile
- Best-interest duty workflows for direct equity recommendations
- Concentration risk monitoring and review prompts
- Quarterly investment committee notes circulated to all advisers

DISCIPLINE · 02

SMSF Strategy

Establishment, contributions, pension phase, BDBNs, in-specie transfers and wind-up.

WHAT'S INCLUDED

- SMSF-specific advice templates (establishment, strategy review, pension)
- BDBN and reversionary pension drafting support
- In-specie transfer and CGT roll-over checklists
- Direct relationships with SMSF auditors and admin platforms

DISCIPLINE · 03

Risk Insurance

Life, TPD, trauma, IP — within and outside super, advised and general.

WHAT'S INCLUDED

- Underwriting strategy support for complex client profiles
- Replacement-policy comparison and best-interest documentation
- Claims advocacy support — we sit with you and the insurer
- General-to-personal advice pathways for risk-led conversations

07 · HOW WE WORK TOGETHER

The cadence of the relationship.

What the day-to-day, month-to-month and year-to-year of Iconic looks like.

A licensee relationship is only as good as its rhythm. Below is the standard cadence every Iconic-authorised adviser can expect — adjusted up where the practice is more complex, never adjusted down for convenience.

DAILY	**Email & phone access**	Direct line to Tony, Antonio and the compliance team within one business day.
WEEKLY	**Regulatory briefings**	Plain-language updates on ASIC, AFCA, ATO and TPB developments relevant to specialist advice.
MONTHLY	**File review & feedback**	Rolling cycle of advice file reviews with constructive, written commentary and improvement suggestions.
QUARTERLY	**Supervision check-in**	Structured 60-minute meeting reviewing advice quality, complaint posture, CPD progress and practice health.
ANNUALLY	**Strategy & business review**	Half-day session covering client mix, fee model, succession outlook, technology stack and growth priorities.
ALWAYS	**Open door**	Anytime escalation for complaints, complex advice scenarios or commercial decisions affecting your practice.

> *"We don't believe in surprise inspections or last-minute panic. The cadence is predictable, the standards are clear, and the support shows up before you ask."*
> — ANTONIO ALBUQUERQUE, MANAGING DIRECTOR

08 · ONBOARDING & TRANSITION

Authorised in 2–4 weeks.

A structured five-step process — fast, transparent, and considered.

Most advisers are fully authorised and operating under AFSL 450822 within two to four weeks of their initial discovery call. The timeline below assumes a clean compliance background and responsive document return — both verified up front.

01
DAY 0

Discovery

A 15-minute, no-obligation call to understand your practice, your specialisation, and what you're looking for in a licensee. We confirm fit on both sides.

02
DAY 0–1

Application

If we both agree to proceed, we send the application pack the same day — fee schedule, authorisation form, compliance questionnaire and reference checks.

03
DAY 1–7

Documents

You complete and return the application pack. We provide a checklist and a single point of contact to keep the process moving.

04
DAY 7–12

Review

Internal review by the Principal and compliance team. We verify history, references and qualifications, and prepare your tailored supervision plan.

05
DAY 14–28

Authorised

Formal authorisation under AFSL 450822, ASIC notification, system access set up, kick-off supervision meeting scheduled and welcome pack delivered.

TRANSITION SUPPORT

Coming from another licensee? We coordinate the transition end-to-end: client communications, system migration, ASIC paperwork and any handover with your former licensee. Most advisers experience zero client-facing disruption.

09 · FEE STRUCTURE

Simple. Transparent. All-inclusive.

One flat monthly fee. No revenue share. No percentage of revenue. Everything included.

The pricing below is the entire commercial relationship. There are no hidden add-ons for compliance support, file reviews, AFCA assistance or document templates within the scope of your licence type. What you see is what you pay.

TIER 01

MOST POPULAR

Comprehensive Personal Advice

$3,000 / month

+ GST · direct debit monthly

- ✓ All financial products
- ✓ Personal, limited & general advice
- ✓ AFSL authorisation under 450822
- ✓ Full compliance supervision & file reviews
- ✓ ASIC monitoring & CPD tracking
- ✓ AFCA complaint support
- ✓ Document templates (SOA, FSG, SMSF)
- ✓ Direct access to the Principal
- ✓ Practice valuation & exit planning
- ✓ Specialist peer network access

TIER 02

General Advice Only

$2,500 / month

+ GST · direct debit monthly

- ✓ General financial product advice only
- ✓ AFSL authorisation under 450822
- ✓ Full compliance supervision & file reviews
- ✓ ASIC monitoring & CPD tracking
- ✓ AFCA complaint support
- ✓ Document templates
- ✓ Direct access to the Principal
- ✓ Specialist peer network access
- ✓ Pathway to upgrade as practice grows
- ✓ Risk-led general advice framework

All fees subject to GST. Deducted monthly by direct debit. No additional charges for compliance support, file reviews or AFCA assistance within scope of licence type. Insurance and managed account services are subject to separate disclosure documents.

10 · FREQUENTLY ASKED QUESTIONS

Honest answers.

The questions experienced advisers actually ask before they switch licensee.

01 Why are you so selective about who you authorise?

ANSWER

Because the experience of every adviser already on our licence depends on it. One poorly-fit authorisation can compromise file review turnaround, regulatory standing and peer culture for everyone.

02 How is your fee model different from a percentage-based licensee?

ANSWER

Most licensees take a percentage of your revenue — the more successful your practice becomes, the more you pay for the same support. Our flat-fee model means you keep 100% of the upside.

03 What if I have a historical complaint or breach?

ANSWER

Disclose it openly during onboarding. Many of our most successful advisers have a complicated chapter in their history — what matters is how it was handled and what was learned. We will not authorise advisers who hide history.

04 Can I bring my existing client base across?

ANSWER

Yes. We coordinate the transition end-to-end — client communications, document migration, system access and ASIC paperwork. Most transitioning advisers report zero client-facing disruption.

05 Do I need to use specific platforms or products?

ANSWER

No. We are platform-agnostic and product-agnostic. Use what serves your clients best, subject to your best-interest duty. We do not receive product commissions or platform rebates that influence approval.

06 How quickly can I be authorised?

ANSWER

Two to four weeks from the discovery call, assuming a clean compliance background and responsive document return. We will be honest with you up front if anything is likely to extend that timeline.

07 What happens if I want to leave?

ANSWER

You leave. We require 60 days' notice and we coordinate the transition to your next licensee. There are no exit fees, no client clawback clauses and no restraints on taking your practice elsewhere.

08 Who actually conducts my file reviews?

ANSWER

A senior reviewer with specialist expertise in your discipline — never an outsourced reviewer or a junior compliance analyst. Tony or Antonio personally sign off on all complex file reviews.

11 · NEXT STEPS

Find your AFSL home.

One conversation. No obligation.

Every Iconic relationship starts with a 15-minute discovery call — usually with Tony or Antonio personally. We use the time to understand your practice, share how Iconic works, and decide together whether we're the right home for you.
